IN PURSUANCE OF A LAW PASSED BY THE present Legislative Assembly, the Oregon State Insane and Idiotic Asylum is located on East Portland, in this county, Drs. Hawthorne & Loryea, Physicians and Proprietors.

The Proprietors of the above Establishment will immediately make additions to their present buildings, in order to offer accommodations to all who are unfortunate enough to need the care and treatment of an Insane or Idiotic Asylum.

It is specially requested on the part of County Judges, guardians and friends of this class of patients, to have them immediately conveyed to the Asylum, so that they may be properly cared for before the inclement weather sets in.

THE INDIGENT WILL BE SUPPORTED AT THE EXPENSE OF THE STATE, and moneys paid on bills made against them. For further particulars apply to DRS. HAWTHORNE & LORYEA, Physicians of the Oregon State Insane & Idiotic Asylum, Portland, Multnomah County, Oct. 10, 1864.

WILCOX & GIBBS SEWING MACHINE.

We would call attention to the following facts in connection with this Machine, which renders it superior to any other in use:

It forms a flat elastic seam which will not rip or ravel;

It is entirely noiseless;

A patented device prevents its being turned backward;

The needle cannot be set wrong;

Can be used successfully without other instructions than accompany the Machine;

It received the Gold Medal of the American Institute in 1863. For particulars, enquire of

[illegible]

[illegible]: In your weekly issue of the 14th ult. [illegible] from W. H. says: "Having population sufficient to entitle us to mail service, and [illegible] population sufficient to spare 58 men as [illegible] two different things," and [illegible] the latter, it is now under con[illegible] the most perplexing thing [illegible] appear [illegible] Well, as [illegible] are shame[illegible] the town [illegible] I tarried for some two weeks. Before leaving La Grande I put your weekly issue of the 24th of December in my [illegible]. On arriving at Auburn I found the people hungering and thirsting for news, having received none for the past fortnight. I presented my paper to Mr. Foster, the gentlemanly County Clerk of Baker county. The news spread like fire and such a rush for news I never saw. The Clerk's office was full all day and some person [illegible] reading aloud the telegraphic dispatches from morning till night. The express [illegible] was about to leave for Mormon Basin, and [illegible] twenty dollars for the paper, but [illegible] at that fabulous price. A man [illegible] some of the most important items, [illegible] pair of snow shoes (about ten feet in [illegible]) and started for Granite Creek with the good news. During the two weeks that I was in Auburn no mail arrived, although it passed up to [illegible] Basin regular. What I desire to speak more particularly about is with regard to raising the full quota of fifty eight men from Union and Baker counties for the First Regiment of Oregon Infantry.

My business at Auburn was to recruit for said regiment, having been appointed by Capt. A. B. Ingraham recruiting officer for the district comprising Grant, Baker, and Union counties, but I am sorry to say that the matter under consideration which W. H. wrote was decided adverse to Uncle Sam's interests; they had concluded not to be food for powder, and suddenly coming to the conclusion that they had untold wealth deposited in their mining claims and a fine prospect for plenty of water in the spring, they all concluded they could not sacrifice several thousand dollars [illegible], and would join no military organization except home guards. Everybody seemed anxious that everybody else should enlist, but none was willing to make the start, consequently I was compelled to leave Auburn without effecting anything further than to prevail on the County Commissioners to agree to allow a county bounty of fifty dollars to each recruit from that county, also to make an appropriation to help bear the expenses of keeping those who enlist until they are mustered into the service. I succeeded in getting three recruits in Powder River Valley, at the village of Pocahontas (a place notorious for Copperheads.) These three were sent to La Grand, which is the headquarters for the recruits of Union and Baker counties, and so far, three is the amount of recruits from Baker county.

Union county has done better, having furnished twelve recruits, with a prospect of still doing better under the management of Capt. Ingraham. Mr. Byron Barlow is now in Umatilla county for the purpose of recruiting. What success he has had I am unable to state. Umatilla county will give one hundred dollars bounty for each recruit, and the citizens plenty of subsistence. If you have any spare men, send them along.

As to filling the quota of fifty-eight men from Union and Baker counties by enlistment, I have my doubts. I think the draft must come, especially if the quota of cavalry is as large in those counties as the quota for infantry. If so, let it come. I should like to help enforce it.

Our winter has been rather severe; thermometer as low as 18° below zero; but little snow in Grand Ronde valley; about eighteen inches in Powder River valley. Meacham's road across the Blue Mountains good; Walla Walla road snowed under six weeks ago. The Hays Brothers, who were wounded in the late La Grande tragedy, are recovering. Yours, &c.,

JOHN W. WILSON.

STATE ITEMS.—The *Statesman* says several persons in the employ of the Santiam Company left town last week for the mountains. Spring operations will be opened in earnest in that region soon.

Valentine's day was observed in the usual mode. Our Postoffice was flooded with dropped letters, and many a queer looking epistle was received.

Captain Bigelow's Company from Lane county, numbering sixty-five men, arrived at Camp Russell last week. They are soon to be mustered into the service. The members of this company are nearly all from Lane and Douglas counties, are men who have an interest in the country, many of them being the sons of influential citizens.

W. H. Odell, Esq., has started east of the mountains on a surveying expedition. He has some surveying to do near Walla Walla, but his season's work will be in the southeastern portion of the State.

A True 'Lincoln Story'—Perhaps the opinion of the President on General Thomas' great victory before Nashville may be of interest

'Mr President,' said a friend to him "there isn't much left of Hood's army, is there?"

"Well, no, Medill, I think Hood's army is about in the fix of Bill Sykes' dog, down in Sangamon county Did you ever hear it?"

Of course the answer was "never"

'Well, Bill Sykes had a long *yaller* dog that was forever getting into the neighbors' meat houses and chicken coops They had tried to kill it a hundred times, but the dog was always too smart for them Finally one of them got a bladder of a coon and filled it up with powder, tying the neck around a piece of punk When he saw the dog coming he fired the punk, split open a hot biscuit and put the bladder in, then buttered all nicely and threw it out The dog swallowed it at a gulp Pretty soon there was an explosion! The head of the dog lit on the porch, the fore-legs caught astraddle the fence, the hind legs fell in the ditch, and the rest of the dog lay around loose! Pretty soon Bill Sykes came along, and the neighbor said, 'Bill I guess there aint much of that dog of yourn left' 'Well, no,' said Bill, 'I see plenty of pieces, but I guess that dog, *as a dog*, aint of much more account!' Just so, Medill, there may be fragments of Hood's army around, but I guess that dog *as a dog*, aint of much more account!

Chinese Treatment of Animals—They never punish, hence a mule that, in the hands of a foreigner, would be not only useless but dangerous to every one about it becomes, in the possession of a Chinaman as quiet as a lamb and as tractable as a dog We never beheld a runaway, a jibbing, or a vicious mule or pony in a Chinaman's employment, but found the same rattling cheerful pace maintained over heavy or light ground by means of a *turr r* or *cluck k*, the beast turning to the right or left and stopping with but a hint from the reins This treatment is extended to all the animals they press into their service Often have I admired the tact exhibited in getting a large drove of frightened sheep through narrow crowded streets and alleys, by merely having a little boy to lead one of the quietest of the flock in front, the others steadily followed without the aid either of a yelping cur or a cruel goad Cattle, pigs, and birds are equally cared for —*Travels on Horseback in Montchu Tartary*

A Specimen of Legal Eloquence—The following is from the Stockton *Record* of January 30th

We have often read of some funny attempts at oratory on the part of some 'mustang' lawyers in California, but a burst of eloquence made by a lawyer of an interior city, a few days since, was decidedly transcendental He was defending a young man for stealing a watch, and tried to prove an alibi for his client "Why, gentlemen of the jury," said he, "this attack on the honesty and probity of my client is a shameful conspiracy to ruin his reputation At the very moment when, as is alleged in the complaint this robbery was perpetrated, in a leafy grove far from the busy haunts of men I myself beheld this unsophisticated youth seated on a moss grown bank, with his arm twined lovingly around the waist of one of the frail daughters of Montezumas [Montezumas is good], and whispering the accents of youthful love in her sun-burnt ear" [Sun burnt ear is better]

A Scotch minister was once busy catechising his young parishioners before the congregation, when he put the usual first question to a stout girl whose father kept a public house. "What is your name?" No reply The question having been repeated, the girl replied, 'Nane o' your fun, Mr Minister. ye ken my name weel enough D'ye no say when ye come to our house on a night, 'Bet, bring me some ale?'" The congregation, forgetting the sacredness of the place, were in a broad grin, and the parson looked daggers

A universalist clergyman of Wisconsin, who has recently returned home from a term of service as chaplain to a regiment in the army of the Cumberland, spoke at a town meeting, and in the course of his remarks touched on the barbarities of the rebels 'My friends," he said, "I have always preached to you against any such an institution as hell, or future punishment, but my experience within the last few months has modified my opinions somewhat, I believe there is a hell provided for these wicked devils, as a *military necessity*.'

The Boston *Courier*, a Copperhead sheet, says, poetically

They would if they could
Stick a stamp on our soul

To which the Springfield *Republican* aptly replies

Lack of space would cramp;
It isn't big enough to hold a stamp

Hans Excited—Several gentlemen were lately discussing the alarming prevalence of the crime of wife desertion, women eloping with other men etc when a Teuton, who had been listening with great attention stepped up and in an excited manner said 'If my wife runs away with another man's wife, I vill shake him out of her preeches if she been mine own fader, mein Gott'

"Perhaps you did not know that I had corns," said a good natured man as a stranger set his carpet bag down on his toes "No stranger" said the carpet bag man "but I think you cultivate too much ground"

The following note was lately received by a gentleman from his overseer "Please send me, by the boy a pair of trace chains and two door hinges Jane had twins last night—also two padlocks"

"How are you, John? I'm deuced glad to see you" 'Very well, Charley come and take a drink, old fellow' 'Tisn't often we meet' 'That's a fact John and when we do it's *meet and drink*"

A patriotic speaker was interrupted by a peace man with 'How many children have you in the army?' To which the reply came—'One, an only—it's not my fault that I haven't more'

IODINE WATER.

IODINE WATER IS THE MOST IMPORTANT DIScovery of modern chemistry and it is impossible to yet estimate its influence as a remedial agent Iodine has been considered the most useful article in Materia Medica [illegible]

HEART,

LIVER, KIDNEYS,

DIGESTIVE ORGANS and GLANDULAR SYSTEM,

and it has great control over

SCROFULOUS AFFECTIONS.

Notwithstanding the zeal and ability which have been devoted to its investigation it remained almost useless until Dr Henry Anders a physician and chemist of New York after years of patient labor and experiment discovered a chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER

without a solvent This considered impossible by the scientific world is attested by certificates of analysis from Dr J R Chilton [illegible] and Prof Booth, U S Mint Philadelphia The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals and its use recommended to practitioners (see American Medical Monthly July 6 1856, page 79)

This valuable medicine is now available to the public for the cure of Scrofula in all its manifold forms Consumption Cancer Heart Liver and Kidney Diseases Rheumatism Neuralgia Nervous Affections, Dyspepsia Bronchitis etc

AS A TONIC

Its operation is evinced by strengthening the digestive organs and increased nutrition of the body is the result of the employment of Iodine The patient recovers flesh strength and color hitherto pale, relaxed and feeble, he becomes full, strong and florid

It has competed successfully with every [illegible] Wheel, and has always proved itself victorious

This Wheel has been in use nearly Three Years [illegible] States and HAS NEVER MADE A FAILURE.

MESSRS LEFFEL & MYERS—*Dear Sirs* We have [illegible] of water now, and your DOUBLE TURBINE is in [illegible] ful operation We are satisfied that your Wheel [illegible] equal if not superior to the Overshot With the [illegible] water that the Overshot uses **we can do [illegible] work with the Turbine than with [illegible] Overshot.** I have tried many Wheels which [illegible] claimed to be superior to an Overshot but yours [illegible] first I have found Hence we do not hesitate to recommend the **American Double Turbine** as the most [illegible] cent economizer of water in our knowledge

Letter from La Grande.

LA GRANDE, Union Co., Oregon, Feb. 3, '65.
EDITOR OREGONIAN:

Dear Sir—In your weekly issue of the 14th ult. is published a letter from W. H., of Auburn, Ogn., in which, after referring to the irregularities of the mail and the quota of men required from what was Baker county, W. H. says: "Having population sufficient to entitle us to mail service, and having population sufficient to spare 58 men as 'food for powder' are two different things," and [illegible] to the latter, it is now under consideration." He says "the most perplexing thing about it is that all seem to want to go, yet appear to be waiting on each other." He speaks further of "Union men not wanting to enlist and leave the Democrats at home, and *vice versa.*" Well, as to mail matter, the people of Auburn are shamefully neglected. To illustrate: I visited the town of Auburn about the 10th ult., where I tarried for about two weeks. Before leaving La Grande I put your weekly issue of the 24th of December in my pocket. On arriving at Auburn I found the people hungering and thirsting for news, having received none for the past fortnight. I presented my paper to Mr. Foster, the gentlemanly County Clerk of Baker county. The news spread like fire, and such a rush for news I never saw. The Clerk's office was full all day and some person was kept busy reading aloud the telegraphic dispatches from morning till night. The express messenger was about to leave for Mormon Basin, and he offered twenty dollars for the paper, but failed to procure it at that fabulous price. A man after copying some of the most important items, mounted a pair of snow shoes (about ten feet in length) and started for Granite Creek with the good news. During the two weeks that I was in Auburn no mail arrived, although it passed up to Boise Basin regular. What I desire to speak more particularly about is with regard to raising the full quota of fifty-eight men from Union and Baker counties for the First Regiment of Oregon Infantry.

My business at Auburn was to recruit for said regiment, having been appointed by Capt. A. B. Ingraham, recruiting officer for the district comprising Umatilla, Baker, and Union counties, but I am sorry to say that the matter under consideration when W. H. wrote was decided adverse to Uncle Sam's interests, for they had concluded not to be "food for powder," and suddenly coming to the conclusion that they had untold wealth deposited in their mining claims and a fine prospect for plenty of water in the spring, they all concluded they could not sacrifice several thousand dollars each, and would join no military organization except home guards. Everybody seemed anxious that everybody else should enlist, but none was willing to make the start, consequently I was compelled to leave Auburn without effecting anything further than to prevail on the County Commissioners to agree to allow a county bounty of fifty dollars to each recruit from that county, also to make an appropriation to help bear the expenses of keeping those who enlist until they are mustered into the service. I succeeded in getting three recruits in Powder River Valley, at the village of Pocahontas (a place notorious for Copperheads.) These three were sent to La Grand, which is the headquarters for the recruits of Union and Baker counties, and so far, three is the amount of recruits from Baker county.

Union county has done better, having furnished twelve recruits, with a prospect of still doing better under the management of Capt. Ingraham. Mr. Byron Barlow is now in Umatilla county for the purpose of recruiting. What success he has had I am unable to state. Umatilla county will give one hundred dollars bounty for each recruit, and the citizens plenty of subsistence. If you have any spare men, send them along.

As to filling the quota of fifty-eight men from Union and Baker counties by enlistment, I have my doubts. I think the draft must come, especially if the quota of cavalry is as large in those counties as the quota for infantry. If so, let it come. I should like to help enforce it.

Our winter has been rather severe; thermometer as low as 18° below zero; but little snow in Grand Ronde valley; about eighteen inches in Powder River valley; Meacham's road across the Blue Mountains good; Walla Walla road snowed under six weeks ago. The Hays Brothers, who were wounded in the late La Grande tragedy, are recovering. Yours, &c.,

JOHN W. WILSON.

STATE ITEMS.—The *Statesman* says several persons in the employ of the Santiam Company left town last week for the mountains. Spring operations will be opened in earnest in that region soon.

Valentine's day was observed in the usual mode. Our Postoffice was flooded with dropped letters, and many a queer looking epistle was received.

Captain Rigdon's Company from Lane county, numbering sixty-five men, arrived at Camp Russell last week. They are soon to be mustered into the service. The members of this company are nearly all from Lane and Douglas counties, are men who have an interest in the country, many of them being the sons of influential citizens.

W. H. Odell, Esq., has started east of the mountains on a surveying expedition. He has some sectionizing to do near Walla Walla, but his summer's work will be in the southeastern portion of the State.

THURSDAY MORNING, FEBRUARY 23, 1865.

Growing Stronger.

It is that anomalous institution the would be Southern Confederacy that we talk of at the present time, which with an apparent hopefulness among difficulties that would be admirable if justified by cause, and is mere desperation for want of a moral principle to commend it, that bolsters up its waning fortunes by some new illusion as each stronghold in succession is wrested from its grasp.

The Mississippi river belonged to it, its flag flaunted from Island Number Ten to the Gulf, and as New Orleans, Island Number Ten, Vicksburg and Port Hudson successively fell before the Union arms, each was resigned—perhaps not without a sigh from the rebel leaders—but with their loud assurance that the Confederacy was all the stronger for being somewhat more condensed. It was a very nice thing to hold the commerce of the great Father of Waters under their own control while they could claim to have it so; it was the easiest thing in the world to do without it when it could no longer be held, and they gathered an idea of strength from the fact of their weakness, finely illustrative of the brilliancy of Confederate imaginings. Missouri is lost to them; Kentucky resolves and fights for the Union; Tennessee is a battle ground oft fought over, now lost to them forever; the army under Rosecrans reaches Chattanooga—under Sherman achieves Atlanta; their lusty manhood becomes almost exhausted, and their armies are replenished by conscripted boys and gray-headed, tottering age; and still, as successively driven in, they are stronger—to believe their words—than ever, and have no element of success lacking.

This was glaring enough before but is becoming ridiculously so now that defeat and disaster is the rule, in fact, without an exception. There has not one glimmer of light gleamed upon their melancholy way for many months. Lincoln was reelected President, and that fact set a seal to all their hopes of compromise and making favorable terms for their "corner stone" institution to still live; while it left no possible show of success to their rebellion. The people who elected Lincoln emphatically resolved to "fight it out," but they frantically rejoice at the result, his re-election is the strengthening plaster that is to stiffen up the back bone of the Confederacy. Sherman has marched through the heart of it, has broken the shell and proven its emptiness. Probably to-day there is not a seaport left to flaunt the rebel flag. Sherman has worked around from the westward until he has reached the birthplace of treason, and Charleston with all its defenses and stores is ours. Mobile is evacuated; Wilmington will soon be in our possession; the whole line of coast will be abandoned by the rebels, and the ships of all the world that float past the harbor and forts that line the ocean and the gulf, will see the brave old flag flaunting proudly to the breeze from every fortress top it crowned four years ago.

And still the Confederacy grows "stronger!" So says the London *Index*, which, foreseeing the issue of events, and recognizing from its lookout on English soil that seaports will become untenable with the advent of Sherman in their rear, declares that rebellion can flee to the mountains and there maintain itself more certainly and independently than upon the ocean or the plain. Let it flee there. Richmond abandoned, access to the ocean cut off, disaffection existing so generally in the seceded States, it will soon die there. But already the exodus commences towards Mexico. General Hindman, with the vanguard of the retreat, has gone thither, and the mountains that they talk of will be upon Aztec soil, and the strength they prate of will soon be merged among the forces that Napoleon has sent to make the unavailing effort to subjugate an Empire for Maximilian. Once let the soil of the United States be free from traitors in arms, and the liberals of America can join forces to clear the continent of domestic and foreign foes.

FROM LEWISTON.—The following items are from the Lewiston *Radiator*:

FROM SALMON RIVER.—Expressman Dwight reports that the weather has been too cold for mining on Salmon river, during the last two weeks in January. It has moderated now considerably. One man had come over the mountains from Florence to Slate creek. The snow was about six feet deep on the mountains, and supposed to be about four feet deep in the Florence basin.

But few of the sheep had died which had been ranching on Salmon river near Slate creek.

FROM ELK CITY.—Bacon, the expressman, arrived on Wednesday eve, from Elk City, with letters and express messages. He describes the cold to have been so severe as to freeze the thermometer at that place. The snow was about two feet deep on the mountains. He came out on snow shoes. No snow on Camas Prairie; from two to three feet on Craig's Mountain. Met the Florence expressman between Durkee's and Cottonwood. There were about 120 miners at Elk City, and all at work.

SERIOUS ACCIDENT.—On Wednesday last, a man named Peter Calligan, when crossing Snake river in a small boat, was very much injured by the accidental discharge of a shot-gun. The entire contents of the barrel entered the fleshy part of the arm above the elbow, tearing and lacerating the flesh so much that amputation may become necessary.

FIRE.—We are informed that the dwelling of Mr. Bugby, situate on the Palouse, about 35 miles from this place, on the Kootenai road, was burned to the ground on Saturday, January 28th. The fire caught from a stovepipe. Loss one thousand dollars.

Judge Woodson, who several months ago was appointed as Chief Justice of Idaho Territory, and who has never set foot upon our soil, has resigned.

From Salem.

SALEM, Feb. 22.—An accident occurred while the Salem Light Battery were firing salutes this afternoon, in honor of the capture of Charleston, resulting in seriously if not fatally injuring two men who were assisting in firing the gun. Chas. Bowker, who had charge of the vent-hole, appears to have raised the thumb-pad from the vent, thereby causing the admission of air, and consequently a premature discharge of the gun took place. Two men named Bevery Weller and Charles Pleasant, who were ramming the charge down, when the discharge took place were severely injured. Waller receiving severe injuries in the eyes and arm, and Pleasant being injured in the body, face and arms.

Joseph Sweitzer, mate of the steamer *Enterprise*, fell overboard and was drowned near the mouth of the Santiam river this morning. Being unable to swim, he sank immediately and his body was afterwards recovered. He leaves a family in Canemah.

The weather is fine, with good prospect of continuance.

An ingenious Pennsylvanian has invented a machine for mining, which weighs 200 pounds, costs $300, and will do the work of twenty men. The machine operates a series of picks, which have the peculiar motion of the human arm, when manipulating a pick in undermining or bearing into the coal, and are moved up to their work by the same mechanism which operates them, and their motion and movements can be graduated to any desired speed; hence the machine can be worked by hand, horse, or steam power.

Evacuation of Mobile.

NEW YORK, Feb. 16.—The *Herald's* New Orleans correspondent says: An order to evacuate Mobile was received from Richmond on the 15th January, and they commenced removing their stores, etc. [illegible] nearly all the [illegible] for Alabama.

CAIRO, Feb. 15.—The New Orleans *Delta* says: The evacuation of Mobile has begun. The fact was known to Gen. Canby [illegible] 14th. The 13,000 bales of cotton which Maury has ordered destroyed [illegible] possession of the place, it is believed will be saved by the citizens.

Sherman still Up and Doing.

NEW YORK, Feb. 16.—The *World's* special says: A special messenger with dispatches, who left Sherman's army ten miles from Branchville, arrived when he left. Sherman was easily overcoming all obstacles in his way. On Friday last Schimmel [illegible] with a small force from Folly Island, crossed over to James Island and captured some rifle pits and took quite a number of prisoners after a brief skirmish. At the time the [illegible] passed Charleston a vigorous cannonading was going on, but the character [illegible] ascertained.

The *Herald's* special says: The Richmond papers of the 14th announce that telegraphic communication with Charleston was broken, and that Sherman's cavalry was probably operating on the railroad from Charleston via Raleigh and Wilmington, thus cutting the last line of communication between Virginia and the South.

PHILADELPHIA, Feb. 16.—A special to the *Evening Bulletin* says: The Richmond papers of the 15th indicate that Sherman's cavalry was actually as far north as Florence, and had reached the important railroad junction on the borders of North Carolina. They also announce that all telegraphic and railroad communication with Charleston has been destroyed, thus showing that Sherman's left column must have struck the Northwestern Railroad running from Charleston to Florence.

Within Two Miles of Charleston.

NEW YORK, Feb. 17.—Sherman's left wing on Monday 15 miles north of Branchville and within 50 miles of Columbia. His right was in front of Charleston, two miles distant, threatening it. On the next day, Tuesday 14th, it was indicated by the Richmond papers that his cavalry had reached the northeastern railroad, thus severing the last remaining link between Charleston and the rebel capital. His troops are also believed to be in the vicinity of Florence, an important point for the convergence of communication between South Carolina, Georgia and Virginia. Even by the papers admit there is nothing to stop Sherman's army, and expects that the National flag will soon be floating over Charleston, Augusta, Columbia and Raleigh.

NEW YORK, Feb. 17.—All doubts regarding the occupation of Branchville by Sherman seem dissipated by a dispatch from the *Herald's* Port Royal correspondent.

The announcement of its capture on the 9th, after three days of hard fighting, was brought to Smithville, N. C., on the 14th, by Conner, who at great peril, rode across the country with a dispatch from Sherman to Porter.

Wilmington papers say that nine refugees, who reached Smithville, confirm the statement.

Richmond journals of Wednesday last say that the War Department has an official announcement of the evacuation of Branchville, which was consequent upon the occupation of Orangeburg, north of it on the railroad leading to Columbia, by a large force of Sherman's infantry, but don't mention any fighting in the vicinity. They report, however, that Kilpatrick had reached a point within one hundred miles of Augusta, February 10th, and was attacked by Wheeler, and driven three miles, with considerable loss. On Tuesday last, they state, there was a Union column, within a few miles of Augusta, and more important still, they state that on Wednesday Sherman's advance reached the south bank of the Congaree, within five miles of Columbia, which is situated on the north bank of that river, the which side the rebels had fallen back. A battle was considered imminent.

Hol for Mexico!

NEW YORK, Feb. 11.—It is now said that the rebel General Hindman, of Arkansas, has gone to Mexico, expecting to obtain a command in Maximilian's army, having lost faith in Jeff. Davis' Confederacy. It is also stated that several other rebel officers have lately arrived at Matamoras with like intent.

From Richmond Papers.

The Richmond *Sentinel* of Feb. 10th says: The Union forces are looking aids in Florida, and were at last accounts advancing on Rich [illegible] unknown force.

The Augusta (Ga.) *Constitutionalist* says: The appointment of Dick Taylor to command the rebel army of Tennessee, had inspired the troops with fresh hopes. They are all in excellent condition.

The Richmond *Enquirer* says: Submission, the abolishment of slavery and its destruction are the only terms that could be got out of the Lincoln Government.

The *Enquirer* of the 11th says: Grant appears to be preparing to push forward his lines still further, having by the recent movement, advanced them three miles further to the west of Petersburg.

WASHINGTON, Feb. 15.—The Petersburg *Express* says: Grant has thoroughly fortified himself in the rear. He is now nearly as strong on that quarter as in front. This is done in order to guard [illegible] the Hampton [illegible] tion. Every road to its only barricade [illegible] heavy lines of works extend in almost every direction.

NEW YORK, Feb. [illegible].—The steamer [illegible] from Port Royal on the 11th has arrived. Among her passengers are Major-Gen. Foster and family. On the morning of the 11th, when off Charleston, he saw and heard sharp fighting.

Breckinridge has been installed as Confederate Secretary of War.

Things at Richmond.

NEW YORK, Feb. 17.—The Richmond papers of [illegible] show that the question of arming the slaves has been temporarily laid aside in the rebel Congress.

Late rebel papers present some very curious and interesting disclosures regarding financial and military matters in Jeff. Davis' dominions; the new currency is now considered of less value than the old. There is no money even of this worthless character, in the Treasury, to satisfy the enormous outstanding accounts, and taxation is declared as heavy as the people can stand.

The proposal to conscript the negroes by the wholesale having received an adverse decision in the rebel Congress, a [illegible] of organizing them voluntarily [illegible].

[illegible] telegraph [illegible] Charleston, on the 13th, that the rebel pickets were driven on Mc James' Island on the night of the 10th, but the lines were re-established next day. The Yankees are still in strong force on the [illegible] with [illegible] eighteen [illegible].

The Richmond *Dispatch* [illegible] all communications with Charleston and Augusta are cut off. Nothing is known of [illegible] places.

Dull Times at Nassau.

A correspondent of the *Herald* says: The closing of the port of Wilmington has had a bad blow to Nassau. All is stagnation there. No one going to the *Herald's* office, the 5th they were [illegible] steamers, and recently engaged in contraband trade. The wharves were filled with goods. The pirate *Tallahassee* [illegible] was there on the 1st of [illegible] the protection of the Government was asked of the United States Consul. Our gunboat *Honduras* arrived there on the 1st, and asked permission to anchor in the harbor, but was refused.

French Losses in Mexico.

[illegible] from Havana [illegible] from Mexico [illegible] surrounded by [illegible] 600 men and four pieces of artillery [illegible] was reported [illegible] Cruz [illegible] Vera Cruz and [illegible] of Mexico [illegible] in these places by frequent [illegible] Mexicans. [illegible] a victory at [illegible]. Gwin has left [illegible] Europe.

Daring Reconnoissance to Wilmington.

The *Herald's* Fort Fisher correspondent says Lieut. Cushing with about 40 men went, Sunday, captured the town of Shallotte, garrisoned by 100 rebels, and held it for several hours, during which he destroyed large stores of army supplies and provisions, and about 80 bales of cotton, and escaped without loss. On the night of the 10th he made a reconnoissance up Cape Fear river, finally penetrating up to the wharves of Wilmington, where he remained long enough to gain much valuable information. He discovered the rebel iron-clad *Chickamauga* sunk in the channel of the river. The next night with four boats he went up to the rebel Fort Anderson, and managed to get close enough under its walls to hear an officer, supposed to be Gen. Bragg, haranguing his men on the loss of Fort Fisher [illegible].

Charleston Evacuated.

SAN FRANCISCO, Feb. 22.—The following telegram has just been received:

CHARLESTON, Feb. 22, 11 A. M.—Charleston was evacuated on [illegible] with 200 cannon, supplies and ammunition [illegible] into our possession on the morning of the 18th. All the cotton was destroyed by the rebels.

LAST NIGHT'S DISPATCHES.

Loyal Georgians in New York.

NEW YORK, Feb. 17.—A meeting of loyal Georgians was held at the Cooper Institute last night. Speeches were made by several residents of Georgia. Resolutions were passed denouncing the secession movement, and urging the early return of the State to the Union.

NEW YORK, Feb. 18.—The Richmond papers contain very interesting disclosures regarding the corruption in Jeff. Davis' Cabinet, and give an insight into the causes of its recent dissolution.

A committee of the Richmond Congress has presented Seddon, late War Secretary, as guilty of gross swindling, and the Richmond journals make statements which add to his guilt. We have also some developments regarding Hood's Tennessee campaign.

The Selma (Ala.) *Mississippian* says: Two regiments of his army returned to Corinth with only 51 men left out of 1,300.

The Richmond *Examiner* announces that the negroes have caught the white military fever in that city, and they are already forming an organization of volunteers for the rebel army.

Schofield Besieges Wilmington.

The *World* says: Information has been received in this city to the effect that Schofield's corps landed at Masonboro, thus putting it beyond doubt that Wilmington is by this time closely besieged, if not already in the hands of our forces.

Various rumors were current yesterday touching the evacuation of that city, but no confirmation has yet been received. By landing at Masonboro Schofield avoided the necessity of marching up the peninsula.

Sherman takes Columbia.

WASHINGTON, Feb. 18.—The Richmond *Examiner* states that a dispatch has been received from an official of the Treasury Department at Columbia, to the effect that Sherman's advance was so near Columbia that the Home Guards and citizens turned out to aid in rescuing the city, and that skirmishing had commenced.

CITY POINT, Feb. 18.—The following is taken from a Richmond dispatch of to-day: Sherman took possession of Columbia yesterday. The intelligence was communicated yesterday by Beauregard in an official dispatch. Columbia is situated on the north bank of the Congaree river, below the confluence of the Saluda and Broad rivers. From Beauregard's dispatches it appears that on Thursday evening the enemy approached the south bank of the Congaree and threw a number of shells into the city. During the night they moved up the river. Yesterday morning they forded the Saluda and Broad rivers, and while they were crossing these rivers, our troops under Beauregard evacuated Columbia. The enemy soon after took full possession. The fall of Columbia necessitated the evacuation of Charleston, which we think likely is already in process of evacuation.

(Signed) GRANT.

Charleston Evacuated.

CITY POINT, Feb. 20.—*To Stanton*: The following dispatch has just been received, signed Grant: The Richmond *Examiner* of to-day says: Charleston was evacuated on Tuesday last, Feb. 14th.

(Signed) WEITZEL, Maj.-Gen.

From Texas.

NEW ORLEANS, Feb. 10.—A refugee from Western Texas reports Price's command at about nine thousand strong, mostly cavalry from Texas. Large numbers of deserters were constantly arriving at the Rio Grande and escaping north into Arkansas and Missouri. Price's headquarters were at Harlan, Texas, forty miles south of Red River, in a fine foraging region. Magruder is at Camden, Arkansas, with a part of his command. The main body, chiefly cavalry, is on a starving expedition in Texas. The horses of both commands are in an exhausted condition. Magruder has twenty thousand men on the muster rolls, two thirds of whom are effective. Kirby Smith's headquarters are still at Shreveport, Louisiana. His entire strength is estimated at thirty eight thousand, only about twenty-five thousand of whom are serviceable. An immense drove of beef cattle, numbering some hundred thousand head, is roaming the prairies of Western Texas. Reports of Kirby Smith's, Magruder's and other rebel officers' cotton speculations will mortify [illegible] made. Hart, rebel agent at Matamoras, is said to have made a million dollars in gold.

From Richmond Papers.

PHILADELPHIA, Feb. 18.—The *Bulletin's* Washington special says, the Richmond papers of the 16th announce that Sherman's main column had reached Kingsville Junction, communicating with Florence on the Manchester and Florence Railroad.

Beauregard is reported as being on the north bank of the Congaree river. Kingsville is on the north side of the Congaree, forty one miles north of Branchville and twenty-five miles southeast of Columbia.

The Richmond papers of the 16th say no official report was received from any part of South Carolina yesterday. At last accounts the enemy held Orangeburg on the Columbia branch of the railroad. Our forces are falling back towards Columbia. The enemy abandoned Branchville last Sunday night. Wheeler last Friday attacked and whipped Kilpatrick at Aiken, ten miles northeast of Augusta, and drove him back five miles in the direction of Branchville.

The Augusta papers of Wednesday state that at that time Slocum was at Windsor, ten miles east of Aiken, advancing on Augusta, his right flank being protected by South Edisto and his left by Kilpatrick's cavalry. Two days after this, Kilpatrick was whipped by Wheeler. Slocum has with him the Fourteenth, Fifteenth, Sixteenth and Twentieth Corps. They comprise the force operating against Columbia and Charleston. This corps of Sherman's army is unaccounted for. We presume it has been left at Savannah.

S. D. Lee and Wade Hampton, recently appointed Lieut. Gens., have been confirmed by the Confederate Senate. The promotion of Hampton makes him rank Wheeler and puts him in command over the cavalry now operating against Sherman.

The *Examiner* of the 10th says that at Kingsville Sherman would be able to destroy the Columbia and Charlotte and Wilmington and Manchester Railroad.

WASHINGTON, Feb. 17.—Richmond papers of the 16th February state that the enemy are quiet in the entrenchments on Hatcher's Run.

Throughout Tuesday night the rumbling of wagons was heard on Grant's lines, in the neighborhood of Deep Bottom. It was supposed that Grant was transferring a heavy body of troops to the north side. This may simply have been the return of the troops which were sent over to assist in the Hatcher's Run fight last Monday.

It was reported yesterday that our rebel troops were evacuating Wilmington. The report has not been confirmed.

An official report had dispatches to the Yankee papers state that Gen. Terry is still in the vicinity of Fort Fisher, waiting for Gen. Hoke. Hoke has the Yankee papers represented that Terry was about to march towards Wilmington, and that there was confident expectation of taking it, but Anderson has proved a more effectual obstacle than they had anticipated. Gen. Baker is reported in full forces at Goldsborough. He reports to the War Department that he has reason to believe that the enemy is concentrating at Newbern. They have with them material for repairing the railroad from Newbern to Kingston. Scouts who came into Kingston on the night of the 11th, report [illegible] at Newbern, and [illegible] on the 13th many [illegible] arrived there, making the [illegible] troops at that post 40,000. It is reported and believed in Kingston, that the enemy [illegible] two locomotives and two cargoes of [illegible] at Morehead City. It is apparent [illegible] Kingston that the enemy design really [illegible] movement in that direction.

The *Enquirer* of the 14th, has a long article against the employment of negroes as soldiers, [illegible] the responsibility to [illegible] who has urged [illegible] of them.

The *Enquirer* of the 16th, states that Sherman got somewhat the start of their forces. Apprehension was felt at Columbia that he would reach there [illegible] taken.

[illegible] Breckinridge in command [illegible].

Miscellaneous.

NEW YORK, Feb. 4.—The [illegible] of war *Neptune* was wrecked between Key West and Tortugas. The crew and the greater part of the [illegible] were saved.

No orders have been received from Washington to commence drafting here to-morrow. It is believed that it will be postponed as recruiting is progressing rapidly.

NEW YORK, Feb. 17.—The steamer [illegible], with twenty [illegible] vessels loaded with captured [illegible] from Savannah arrived this morning.

NEW YORK, Feb. 17.—Major Gen. Schofield has assumed command of the Department of North Carolina. This places him at the head of all the military forces operating in the vicinity of Wilmington. Advices from Cape Fear [illegible] to the 9th report all quiet.

NEW YORK, Feb. 17.—The *Commercial's* New bern correspondent says: An expedition is preparing there which, in all probability, will make an advance on Goldsboro. If captured, this will give the United States all of south eastern Carolina.

The *World's* Washington correspondent reiterates his former statement that the rebels will soon evacuate Richmond and the Atlantic coast, and fall back to the mountains in the interior. He now says that General Beauregard will command two grand armies, and that preparations are making for an overwhelming attack on Sherman.

NEW YORK, Feb. 16.—The *Commercial's* special says: There are rumors in Washington of favorable military news from North Carolina, in addition to that received last night. The admission of the Representatives from Louisiana is regarded as certain.

NEW YORK, Feb. 17.—The movement towards Wilmington last Saturday resulted in a permanent advance, the Union lines being moved over two miles of new ground. The position was held and works were immediately thrown up.

Congressional.

NEW YORK, Feb. 13.—The *Post's* special dispatch says: In the letter to the Committee of Ways and Means, Fessenden does not ask for power to issue more currency. It is probable he will rely on the seven and three tenth notes for the next fiscal year.

Ex-Governor Thomas H. Hicks, U. S. Senator from Maryland, died at 7 o'clock this morning.

WASHINGTON, Feb. 13.—The Constitutional amendment to abolish slavery, after having passed the Senate by 26 to 21, passed the House to-night by a vote of 57 to 20.

WASHINGTON, Feb. 13.—Most of the Northern and Western States have ratified the amendment to the Constitution abolishing slavery. Only one State—Delaware—so far, has decided against it.

WASHINGTON, Feb. 16.—The House passed the Senate bill for the establishment of steam service between the United States, China and Japan.

The *Post's* special says: The Ways and Means Committee have increased the pay and salaries 20 per cent.

It is believed the issue of Treasury notes, under the new loan bill, will be limited to the denomination of $100 and upwards.

The President to-day nominated Senator E. D. Morgan, of New York, to be Secretary of the Treasury.

NEW YORK, Feb. 14.—The *Commercial's* special dispatch says: Notwithstanding Senator Morgan's declination after his nomination to the Treasury Department, his friends continue to press his name upon the President. It is thought Morgan will accept the position.

WASHINGTON, Feb. 15.—Lucien Curtis has been appointed Collector of Internal Revenue for San Francisco vice Patch.

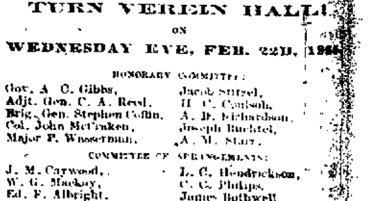
EUREKA



IMPROVED SELF-ADJUSTING

CLOTHES WRINGER

AWARDED THE FIRST PREMIUM
AT OREGON STATE FAIR IN 1864!

Abstract from Examining Committee's Report of The San Francisco "MECHANICS' INSTITUTE" INDUSTRIAL EXHIBITION, OF 1864:

"CLOTHES WRINGERS.—A variety of these Excellent Household Helps were found competing for your favor. Though none of them are entitled to a Premium, we consider the EUREKA, exhibited by M. E. Traver & Bro., worthy of honorable mention." (Note—No Premiums were awarded to articles of Eastern Manufacture.)

The EUREKA CLOTHES WRINGERS are made far superior to all others in CONVENIENCE and DURABILITY by the use of

PATENT ELLIPTICAL STEEL SPRINGS,

Which produce a UNIFORM PRESSURE upon goods and Clothes of every size.

The IMPROVED EUREKA has the HINGE CLAMP, which will fit any Tub or Box perfectly. Its entire construction is simple and excellent. Every Family should have one. It will soon RE-PAY ITS COST IN SAVING Time Labor and Clothes.

Street Work.—The Committee on streets and public property have been arranging matters for the plan of our street work for the coming season, and after repeated meetings and consultation on the subject, we learn, are to submit the result recommended at the regular meeting of the Council to-morrow evening. There is no time to be lost in the matter of street improvements, and to accomplish anything before the wet season commences, it is necessary to have the work begun in the Council before the present wet season is over. We are not advised in respect to the special course likely to be adopted, but believe it has been considered sufficiently to contain the best recommendations. The cobble work done last season below Pine street, we are disposed to think, was not a fair test of work for durability. Part of it seems to be miserably done, and we think if such character of work is to be carried out, it will be a failure, unless what has been done is improved upon. There is another measure in connection with this subject that requires the attention of the Council; and that is the regulation of drays, trucks, etc. Some of our truckmen are in the habit of carrying, as a load, from three to five tons. Their truck-tire is narrow, and it requires that they be licensed according to the width of tire used. We have not much doubt but that paving can be made successful, and possibly will be found of the best advantage to Front and First streets. Second street could be made good for the necessary amount of business for some years to come, by being planked. Third street partly planked, and worn out, with the exception of Park streets, which we concur in opinions as expressed before, should be graveled. When the city is properly arranged for the convenience of travel, there will not be a finer place on the coast—summer and winter. The streets heretofore have been the greatest obstacle to our success, and have forever obliterated our pretensions for health and happiness.

The Hawaiian Islands.—We are in receipt of a private letter from Honolulu in regard to reports likely to be set afloat concerning the Hawaiian Islands, by sojourners now leaving there, who have been disappointed at finding a "cheaper" set of citizens on the Islands than themselves. Oregon, we do not believe, has any surplus population to bestow upon an emigration "farther west," but as everything in regard to a country so near to us, and becoming so intimately connected with us by commerce is of general interest, we may say that we believe it offers better inducements to some, than an emigration to Chili, or any part of South America. The Honolulu *Commercial Advertiser*, in a lengthy reply to foreign correspondence, which has been given us by Mr. Weeks, lately returned, on the subject of the resources of the Islands, sums up as follows:

"Our Government is liberal; taxes are mild; Courts of law guarantee justice to foreigners and natives alike; our climate is almost as genial and healthful as the air of Eden; life and property are considered secure; land is abundant; labor and capital are in demand and well paid, and the staple products of the islands—molasses, sugar and wool in particular—are in constant demand and likely to continue so for an indefinite period."

Willamette Theatre—Benefit of Mr. G. B. Waldron.—This benefit will take place at the above Theatre to-night, on which occasion the thrilling legend of terror—"The Angel of Midnight," or "Twelve o'clock and the Shadow of Death," will be performed. Mrs. Irwin will appear in three leading characters; Mr. Irwin as *Paul Renee*; Mrs. Getzler as *Marguerite*, and Mr. Waldron as *Capt. Satan*, with other characters by the Company. The popularity of Mr. Waldron, and the facts related above, insure a large attendance. Tuesday night at the Theatre was a very successful one. On no occasion have the different characters assumed, been better sustained. The audience was good in numbers. While all did well, we will particularize that the female characters were well performed. Miss Douglass as *Granny Willoughby* was a great success—it suited her exactly. The great feature was the character of *Sam Willoughby*, granny's fast grand-son, inimitably performed by Mrs. Irwin.

Circuit Court.—The following State cases were finally disposed of yesterday in the Circuit Court: Against George Purdon and Levy Tenor, for gambling—the first was a verdict of not guilty; the second discharged on a motion of Prosecuting Attorney. Indian *Jim*, Lewis Clidat and Julien Ladrew, tried for larceny, were each discharged, in consequence of the most material witnesses failing to appear upon the indictments. Joseph Scott was found guilty of the assault upon Policeman Ball, but had not received sentence. The case of A. Cahn & Co. vs. A. & J. B. Harker—an injunction proceeding, was dissolved, and plaintiffs adjudged to pay the costs. Several cases of selling liquor on Sunday were disposed of. The case of the State vs. C. H. Hall, is set for trial for this forenoon.

Idaho Matters.—Hon. C. DeWitt Smith, lately arrived from Washington to take charge of the affairs of Idaho, and left for the field of his action yesterday morning by the steamer *Wilson G. Hunt*. He has been appointed by President Lincoln as Secretary for the Territory, and brings with him funds sufficient to pay off the indebtedness and set the wheels of government going there, in good shape. About the Capital question, we understand Mr. Smith will deal on the correct principle, and if the act is found illegal, it will merely be a misfortune for Boise City. Evidently, however, the interests of Idaho will demand its removal to the last named place.

The Sewing Machine War.—We are publishing in our columns the statements on the Grover & Baker side of the Sewing Machine War, which has grown out of the action at the late State Fair held in Salem. This is a matter wholly between the Agents and Companies represented, in which we have no wish to take part; but as the questions seem to be somewhat *personal*, we are held accountable for publishing them; and we hope our readers will excuse us from saying anything about the relative merits of the case, as we are informed by the gentlemen connected with the Florence Machine, that it is their intention to show the other side without *personalities* in a short time.

Navigation Open.—The steamer *Owyhee* left Celilo Wednesday morning with fifty tons of freight and about one hundred and fifty passengers for Umatilla and Wallula. She will leave Celilo again on Saturday. Passengers leaving Portland on Friday morning will connect with her. The steamer *Spray* will leave Celilo on Tuesday next for Umatilla and Wallula. There is but little doubt but what the boats will go through. The steamer *Ida* will commence running on Monday next, carrying stock between the Cascades and the Dalles.

Fine Weather.—What lovely weather we are enjoying—such as would be sufficient to persuade a Mermaid to leave her submarine abodes to dwell beneath the cloudless sky, and bask in the genial sun-shine and temperate atmosphere. Business is "picking up" lively under the influence of pleasant weather, and soon the city will hum with a din and clatter never before heard, by way of buildings and improvements generally.

The Black Sack.—During the incendiarism of eastern cities, people had a dread of men seen on the streets with black carpet sacks. Yesterday we were informed by a late resident of the east, that he had seen a man in this city "with a black carpet sack," and people had better look out for him. We think there is no very great danger, however.

Vandalism.—The *Pony Saloon* was entered on Tuesday night, and a large quantity of the property destroyed, besides some other articles taken away. The *Gem Saloon* was also broken into, but a watch-dog drove the thieves from the premises without their committing any depredations. Three men were arrested on suspicion of being the parties, and as they are "noted scoundrels" there is little doubt as to their guilt.

Arrival of the Crosby.—The schooner *Alfred Crosby*, Capt. Ketchum, lately so nearly wrecked on Tansy Point, arrived in port night before last in tow of the steamer *Julia*, and was yesterday receiving a cargo at Knott's wharf for Victoria. She was not so badly damaged but that she is capable for service; and we are pleased to see her on the berth for resumed business.

Wives on the Wing.—The San Francisco press says the domestic hive of that city appears to be swarming. Not less than four husbands in one day advertised their wives as having taken flight from the family hive. The same may be said of Multnomah County—as attested by petitions for divorce in the Circuit Court during the present term.

Bullion.—Hodge & Calef, Messrs. Cahn & Co., and other firms of the city, have received bullion from the Owyhee lately, which is of the finest quality—almost pure silver. With these evidences before us of the metal to be procured in the regions east of Portland, we can pass by the scandalous reports being published in the California papers concerning our mines.

Anniversary Ball.—We were unable to remain very long at the festivities of Company B, last evening, but during our stay witnessed a large assembly in the enjoyment of the dance. The hall was very handsomely decorated, the music good, and the best of feeling seemed to prevail. The supper was excellent, got up in the best style by Mrs. Vernier, the popular hostess of the Pioneer. We are gratified at being able to state that the first annual ball of the Washington Guards was a success.

The Anniversary.—The anniversary of George Washington's birthday was celebrated by firing salutes, &c., in this city, together with general rejoicings of the people over the good news received by telegraph. As the salutes were being fired by Capt. Joyce's Company of Artillery, Ex-Sheriff Parkinson, of Boise county, called upon the gunner and had a Federal salute fired for Idaho, paying for the expenses of the same himself. Wasserman & Co., as is usual with them on important occasions, exhibited their enthusiasm by sending up a balloon, which floated away gracefully to the south east until lost in the distance.

Multnomah No. 2.—The Engine Company above named, gave a social hop at their hall last evening, in commemoration of the anniversary of the Patriot's birth; and we found them in the enjoyment of the occasion quite worthily. The front of their building was illuminated, while inside, the music and dancing attested the fact that Washington was not forgotten by them. This is the fifth anniversary which has been celebrated by Company No. 2; and on former occasions some of their parties have been literally sought out with a earnestness quite excelling other festivities of the city. The affair last evening was very excellent.

L. B. Vickers.—A friend in Portland has received a letter from this strange person, dated Dec. 4th, at New York City, where he expected to remain until Spring. So there is considerable doubt whether the wandering "Angel of the Lord and Temporal King upon Earth," was killed by the Indians on the overland route, as stated in the California papers.

Meeting of the Stock and Exchange Board.—At the meeting of the above Board yesterday, considerable bidding was done on legal tenders, opening at 60 and closing at 60½ cash.

San Francisco, Feb. [illegible]

J. A. Fletcher commenced suit to-day against Ira R. Rankin et al. [illegible] claiming damages for an alleged breach of contract, for the construction of engines, boilers and ditching machine at the Pacific Foundry, which machinery was to have been completed on the 20th September, 1861, but was not completed until 20th September, [illegible] claims damages of [illegible] amounting to $120,000; also, $17,[illegible] [illegible] ing the works. [illegible] suit, claiming [illegible] tember up to the present [illegible] of defendants to deliver the machinery to him, and claims [illegible] in lieu thereof $20,000.

Several sailors from ship Great Republic entered complaints before the U. S. Commissioners this morning, charging Capt. [illegible], Chief Mate Walls, Boatswain Howard, Second Mate [illegible] and boatswain, with extreme cruelty, knocking down with handspikes and belaying pins, tying up and, gagging with knotted ropes, [illegible] kicking, beating bruising, maiming and everything but killing their men, is charged against them. All the officers, except the Captain, whom [illegible] have secreted themselves.

Private advices from Honolulu state that the Mormons are making preparations for starting a colony to raise cotton on the Islands. Brigham Young's Agent has arrived from Honolulu to obtain the necessary implements. Their avowed object is for the raising of sufficient cotton for the wants of Utah.

The submarine telegraph cable was laid across the Golden Gate to-day, and was a complete success.

The crew of the ship [illegible] mutinied this morning, and refused to do duty. The U. S. cutter Shubrick laid alongside, arrested them and placed them in irons. They allege that they were shanghaed on board.

D. Lander, who was charged with an infamous crime, was allowed to plead guilty to the charge of assault and battery, and was sentenced to one year's imprisonment in the county jail.

Henry Howard, Boatswain, and William Ross, Acting-Boatswain, of the Great Republic, were held in $250 bonds each, to appear before the Grand Jury.

To-morrow will be very generally observed as a holiday by business men. All the banks and public offices will be closed.

The steamer Sacramento will take only about fifty passengers.

The addition of Arizona and Southern California to the military department of the Pacific has made the creation of a sub-department necessary. The command has been tendered to and accepted by Provost-Marshal-General Mason.

Foreign News.

The great trotting match in Paris between the American horse Shepard and the French horse Express, resulted in the victory of the American horse, the latter winning by upwards of one hundred yards.

Queenstown, Feb. 5.—Reinboldt, the defendant in the Pagin pirate Rappahannock case, has been acquitted on all accounts.

Cardinal Wiseman is reported as rapidly sinking.

Victor Emanuel is on a visit to Florence, where he received a most enthusiastic reception.

Turin was in a considerable state of excitement, though no disturbance had occurred.

The Herald's special says: Our Consul to London has informed the Government of the sailing from Kingston Island of the steamer Ajax, which is intended for a rebel pirate. Her armament has gone or would go out on a sailing vessel. Notwithstanding the fact that she is small it is thought she will be able to do much damage to American shipping. It is thought she would go to Nassau before taking on board her guns.

New York, Feb. 6.—The Herald's Buenos Ayres correspondent says: Paraguay, the ally of Uruguay, has declared war against the Brazilian government.

New York, Feb. 11.—By steamer Ocean Queen we have important advices from Peru.

An arrival from Callao, Jan. 28, brought news that the Spanish-Peruvian question was settled. The terms are said to be that Peru shall pay $3,000,000 for the expenses of the Spanish expedition, while Peru obtains possession of the Chincha Islands and admits a Spanish envoy.

The small pox continues its ravages at Kingston, Jamaica.

The government of Bogota has issued an order prohibiting the passage of foreign troops across the Isthmus in future. An exception is made in regard to the United States troops, owing to the situation of their territory on the Pacific.

The Ocean Queen brought two hundred and sixty-four thousand dollars in treasure.

From the London Press.

New York, Feb. 16.—Professor Goldwin Smith, in the London News, controverts the opinion of the Manchester papers, and says that, although a compromise with the slave oligarchy was impossible, it is possible that at no distant time, negotiations may hopefully commence with separate States, over which the oligarchy at Richmond is losing all its usurped powers.

The Index, the Confederate organ in London, ridicules Blair. It does not altogether discredit the peace rumors, but asserts that the North is unmistakably tired of war, and that more rational counsels are beginning to prevail. It claims that the abandonment of the seacoast will add strength to its inland force. The Index then points out how friendship may be restored between the North and South, and that so close an alliance may be formed as to practically make a new Union. Under such circumstances, a war with England or France, or both, would be a necessity.

The Index contends that the United States Government is paving the way for such a war. It says: The war has reached such a crisis that England and France must decide to be either the friends of one of the belligerents or fight them both.

Events are occurring which may precipitate that decision—at least in the case of France.

Meantime, the Index bids friends of the South to be of good cheer. It promises them shortly a series of agreeable surprises. It also gives a rumor, alleged to be current in political circles, of an intention on the part of the British Government, to sever its connection with the Canadas before the termination of the American war, so that the finest provinces of Great Britain may be seized without forcing England into war.

The London Times editorially finds fault with the legal opinion given by Wm. M. Evarts in regard to the right of European creditors to receive debts in America on the specie basis. The Times observes it is true that Courts arrived at the satisfactory conclusion that foreign transactions ought to be settled according to the real and not the nominal value of American currency; but the conclusion is expressed so doubtfully, and is fenced around with so many limitations, that those whose interest it is to maintain the opposite opinion, will have little to do.

A soldier arrived from Savannah, who was through with Sherman, tells of the boys as reported in the Ga[illegible]. The boys learned how to rob beehives without penalty of stinging. The plan is to rapidly approach a hive, take it up suddenly, and placing it upon the shoulder, with the open end behind, run like thunder. The bees hustle out and fly back to the place where the hive stood. The honey belongs to the boys who win it.

without a solvent. This, considered impossible by the scientific world, is attested by certificates of analysis from Dr. J. R. Chilton [illegible] and Prof. Booth, U. S. Mint, Philadelphia. The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals, and is recommended to practitioners. LUNG BALSAM!

The Remedy for Curing

CONSUMPTION, COUGHS, COLDS,

Asthma, Croup,

Diseases of the Throat, Bronchitis, Pains and Oppression of the Chest and Lungs, Difficult Breathing and all the Diseases of the Pulmonary Organs.

ITS ACTION IS EXPECTORANT, ALTERATIVE, SUDORIFIC, SEDATIVE, DIAPHORETIC AND DIURETIC, which renders it one of the most valuable remedies known for curing diseases of the lungs. It excites expectoration, and causes the lungs to throw off the phlegm or mucus; CHANGES THE SECRETIONS AND PURIFIES THE BLOOD; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect, that it is WARRANTED TO BREAK UP THE MOST DISTRESSING COUGH IN A FEW HOURS' TIME, if not of too long standing. IT IS WARRANTED to give entire satisfaction even in the MOST CONFIRMED CASES OF CONSUMPTION. IT IS WARRANTED NOT to produce costiveness (which is the case with most remedies) or affect the head, as it contains no opium in any form. IT IS WARRANTED TO BE PERFECTLY HARMLESS to the most delicate child, although it is an active and powerful remedy for restoring the system. THERE IS NO REAL NECESSITY FOR SO MANY DEATHS BY CONSUMPTION, when ALLEN'S LUNG BALSAM will prevent it, if only taken in time.

Sold by all Druggists. Price $1 per bottle.

Portland, Oregon, June 15, 1864.

Proclamation.

State of Oregon, Executive Department, January 12th, 1865.

WHEREAS, I HAVE RECEIVED A REQUISITION from Major General Irvin McDowell, commanding the Department of the Pacific, acting under the authority of the War Department, for a regiment of Cavalry for another term of years, by retaining in whole or in part the Regimental and Company organization of the present Oregon Regiment of Cavalry, to aid in the enforcement of the laws, to suppress insurrection and invasion and to chastise hostile Indians in this Military District.

Now, therefore, I, Addison C. Gibbs, Governor of the State of Oregon and Commander-in-Chief of the Militia thereof, do hereby call upon the citizens of this State to organize themselves into Companies sufficient to fill the foregoing requisition.

[L. S.] In witness whereof, I have hereunto set my hand and caused the Seal of the State of Oregon to be affixed. Done at Salem this 12th day of January, A. D. 1865.

ADDISON C. GIBBS,

Governor of Oregon.

Attest: Samuel E. May,

Secretary of State.

Plan of Recruiting.

The Regiment will retain the name of the 1st Cavalry Oregon Volunteers. It will consist of twelve Companies—seven Companies of the old Regiment will be recruited to the minimum strength required. Five new Companies remain to be raised. A Recruiting Officer for each new Company will be appointed.

Commissions will be issued by the Governor to Recruiting Officers, conditional that they shall recruit their respective Companies in the District to which they are assigned, and be ready to be mustered into the service within a time hereafter to be named. All the Officers for the new Companies and the First and Second Lieutenants for the old ones will be appointed as soon as the Companies are filled.

As soon as it is practicable the State will be divided into Districts, according to the number of persons in each liable to do military duty and to the number of troops heretofore furnished. When such District has furnished its quota of men there will be no draft in the same under this call.

The State has provided by law for the payment of a bounty of $150 in State interest-bearing bonds, payable in gold to each Volunteer mustered into the service for three years, in addition to the bounties authorized to be paid by the United States.

Under Act of Congress, those who enlist for one year are entitled to a bounty from the General Government of one hundred dollars; for two years, two hundred dollars, and for three years, three hundred dollars, one-third of which is payable at the time of muster-in. Neither drafted men nor substitutes—furnished either before or after the draft—are entitled to bounty.

The wages of a Private soldier are $16 a month, besides clothing, equipments, rations, medicines and medical attendance, and other allowances furnished by the United States.

The pay per month is to 1st Sergeants of Cavalry, $24; Sergeants, $20; Corporals $18; Buglers, $16. A Company can be mustered in on reaching a minimum of 82 enlisted men.

All the Horses for enlisted men will be furnished by the Government.

Appreciating highly the patriotic action of the people in responding to the previous call for an Infantry Regiment, it is hoped that equal alacrity will be exhibited in raising a Regiment of Cavalry.

LEFFEL'S AMERICAN

DOUBLE TURBINE WATER WHEEL!

LEFFEL'S AMERICAN TURBINE HAS many advantages over all other Wheels, both Turbines and Overshot.

It has competed successfully with every variety of Wheel, and has always proved itself victorious.

This Wheel has been in use nearly Three Years in the States and HAS NEVER MADE A FAILURE.

It is CHEAPER than an Overshot, MORE DURABLE, and will YIELD A HIGHER PER CENT. OF POWER from the same quantity of water. We have introduced five on this coast. They are not all in operation yet, but will be in a few days. The following testimonial is from an old and experienced Millwright, well known in this State:

Westport, Clatsop Co., Oregon, Nov. 19th, 1864.

Messrs. Leffel & Myers—Dear Sirs: We have plenty of water now, and your DOUBLE TURBINE is in successful operation. We are satisfied that your Wheel is fully equal, if not superior to the Overshot. With the same water that the Overshot uses, **we can do more work with the Turbine than with the Overshot.** I have tried many Wheels which were claimed to be superior to an Overshot but yours is the first I have found. Hence we do not hesitate to recommend the **American Double Turbine** as the most efficient economizer of water in our knowledge.

We desire all who want Wheels to visit the following named places and have ocular demonstration of the above facts:

THE OREGONIAN,

A

FIRST-CLASS POLITICAL AND FAMILY NEWSPAPER

Published Daily and Weekly.

PROSPECTUS FOR THE FIFTEENTH VOLUME, Commencing November 19th, 1864.

The character of the OREGONIAN which has been regularly issued for fifteen years, being the oldest newspaper in the State, has become so well established, and is so favorably known, that we hardly deem it necessary at the present time to announce that it will continue to be a FIRST-CLASS INDEPENDENT FAMILY AND POLITICAL NEWSPAPER. We shall spare no efforts towards its further improvement and progress, and to make the OREGONIAN not only a complete compendium of general news and passing events, but also a pleasant fireside companion and a faithful commercial guide. It will contain full reports of important naval, military and political movements, with Stories, Sketches, Poetry, Editorials upon current topics, Correspondence from different sources and Telegraphic Dispatches up to the time of going to press.

It is the only paper in Oregon that gives full and ungarbled Telegraphic Reports, and that receives these Reports in full, expressly for its own columns.

The size of the Weekly was much enlarged with the commencement of the present volume, but the price remains still at the low sum of THREE DOLLARS per annum, hoping thereby to secure an increase of circulation as the reward of our enterprise.

Our columns will be devoted to the advocacy of Union principles, and we hope by a candid and courteous discussion of political principles to command readers of every political complexion and the respect of all our readers.

We shall specially endeavor to conserve the interest and merit the patronage of the large and important mining regions of Idaho, Washington and our own State, to publish all matters of interest relating thereto, and do full justice to their growth and importance, and shall endeavor to receive interesting and reliable correspondence from that section of country.
